

Easy Engineering Projects

I will not have a “handout” but you may want to bookmark [my science blog](#) to reference in the future - you can easily filter for “engineering” projects. I have also created a [Tips on How to Teach Engineering to Kids](#) which you may want to refer back to.

Supplies:

- package of index cards (or about 40 cards)
- plastic spoon
- wine cork or pvc coupler fitting (any size) (*or anything similarly shaped*)
- 2 rubber bands
- small object (about the size of a dime)
